PROFILE

Experienced **Quality Assurance Engineer with 3 years of expertise** in SaaS product testing, delivering 7+ modules for industry-leading clients like Netskope, Palo Alto and CrowdStrike. Proficient in manual and automation testing, with a proven track record of reducing testing efforts by 40% through automation. Skilled in cross-functional collaboration facilitating effective interactions with work teams and clients, mentoring junior engineers, and implementing CI/CD best practices to ensure product quality and timely delivery in Agile teams.

PROFESSIONAL EXPERIENCE

Senior Quality Assurance Engineer
rtCamp

Jan 2025 – Present
Pune, India

- Working on assuring Quality in Wordpress ecosystem.

Quality Assurance Engineer
Crest Data Systems

Jan 2022 – Dec 2025
Ahmedabad, India

- Achieved 40% reduction in manual testing efforts through automation using Pytest and Playwright.
- Created and executed comprehensive test cases with 100% scenario coverage, including edge cases.
- Mentored 4+ junior engineers, enhancing team efficiency and adherence to QA best practices.

SKILLS

- **Functional Testing:** System and Integration Testing, Regression Testing, API Testing, UAT, Accessibility Testing
- **Testing Tools:** Playwright, Pytest, Postman, JMeter
- **Programming Languages:** Python, TypeScript, Wordpress
- **DevOps & CI/CD:** Docker, Kubernetes, Jenkins, Bamboo, Github Actions
- **Cloud/OS Platforms:** AWS EC2, GCP, Linux OS, Windows Server OS
- **Monitoring Tools:** Splunk, Prometheus, Grafana
- **Soft Skills:** Leadership, Problem Solving, Test planning, Test estimation

PERSONAL PROJECTS

Visual, Accessibility, and Functional UI Testing Framework

Developed a comprehensive framework for visual, accessibility, and functional UI testing using Playwright, TypeScript, and Allure Report.

- Implemented functional UI tests, visual regression tests, accessibility tests adhering to WCAG (Web Content Accessibility Guidelines) standards with automated compliance reports.
- Created CI/CD pipeline using GitHub Actions for consistent execution with code formatting and linting and integrated reporting.
- GitHub repository: [playwright-allly-visual-regression](#). Reports hosted on GitHub pages: [Accessibility and Allure Reports](#).

Mobile Automation Framework

Developed an automated testing framework for ColorNote APK using WebdriverIO, Appium, TypeScript, and Mocha.

- Enabled scalable and reusable testing with detailed reporting.
- Hosted on GitHub: [mobile-automation-framework](#)

PrecisionQA - AI-Driven Test Case Generator

Developed an intelligent testing tool leveraging AI to simplify test case generation for diverse software applications.

- Integrated Google Gemini for AI-driven test case generation.
- Deployed on Render: precisionqa-ai.onrender.com

Web Automation Framework

Automated testing for Flight Network's web application using Playwright and TypeScript.

- Ensured efficient test execution and reliability through modular architecture.
- Hosted on GitHub: [framework-typescript-playwright](https://github.com/framework-typescript-playwright)

COMPANY PROJECTS

Netskope Cloud Exchange

Cloud Risk Exchange, Cloud Threat Exchange, Data Loss Prevention modules, facilitating automatic discovery of sensitive data, utilized by over 3,000 companies, including 25 Fortune 100 companies.

- Delivered 2 submodules and 10+ plugins with critical features for DLP Module.
- Automated setup tasks and data generation processes, reducing testing efforts by 40%.

Palo Alto Firewall Portal

A portal hosted in GCP enabling end-to-end deployment of firewalls across three cloud platforms.

- Successfully led QA processes for a complex project involving GCP, Pub/Sub, SSO, OAuth2.0, SAML 2.0, RBAC, cloud deployment (GKE, Docker), REST APIs, and PostgreSQL.
- Validated Load Balancing (Ingress) and System Scalability (K8S), ensuring comprehensive product quality.

CrowdStrike

Falcon LogScale, a log management platform supporting large-scale logging (3B+ events) and real-time data, metrics, and trace analysis.

- Managed a team of 3 QAs, ensuring timely delivery of features.

Team Planner

A tool utilized within Crest for managing 1,200+ resources and 100+ project plans by PMOs.

- Led testing efforts and ensured compliance with ISO Audit Standards for the timesheet feature, accessed by nearly 1,200 Crest employees.

EDUCATION

Master of Computer Applications (MCA)

The Maharaja Sayajirao University

June 2020 – May 2022

Baroda, India

Bachelor of Computer Applications (BCA)

The Maharaja Sayajirao University

June 2017 – May 2020

Baroda, India
